STATE MINISTER

STATE MINISTER

MINISTRY OF EDUCATION
GOVERNMENT OF THE
PEOPLE'S REPUBLIC OF BANGLADESH

It is a great pleasure to note that East West University is going to hold its third Convocation.

University is a center for acquiring knowledge where the learning process should not be confined into mere attending classes. While the assimilation of information is a central part of the university experience, learning about others, about independence and leadership, and living in a complex society are equally important.

It is my pride and pleasure that East West University, established in 1996 under the Private University Act, which was passed by our BNP government in 1992 has made rapid progress and ranked itself among the leading private universities by meeting the growing need of higher education of the country.

I am glad that East West University, in keeping with its motto which is 'Excellence in Education', continues to provide the best possible education in the country. The special attention and care to the children of the middle class as given by East West University augurs very well for the country.

I believe today's young graduates will dedicate themselves for the betterment of this nation and country with the knowledge they have gained at the university. I congratulate the Graduates, their families and friends along with the faculty members on this happy occasion.

A.N.M. Ehsanul Hoque Milan
